EDUCATION

Bachelor of Technology, Computer Science Engineering

April 2020 - April 2024

GIET University, Gunupur, Odisha

CGPA: 8.13

Relevant Coursework: DBMS, OOPs, Software Engineering, Data Science, Operating Systems, AI, Networking

TECHNICAL SKILLS

Programming & Libraries:	Python, SQL, NumPy, Pandas, Matplotlib
ETL & Orchestration:	Talend, QLIK, Apache Airflow, Extract Transform Load (ETL)/ELT, Data Pipelines, Data Migration, Data Integration, QLIK Replicate
Big Data & Streaming:	Snowflake, Google BigQuery, Data Warehouse, Apache Spark
Cloud Platforms:	Google Cloud Platform(BigQuery, Dataflow, Pub/Sub, Cloud Storage), AWS & Azure (Basic)
Data Architecture:	Data Mesh Architecture, Star Schema, Snowflake Schema, Data Governance & Security, IAM, Access Control, Policies, Data Lineage
Version Control:	Git, CI/CD
Emerging Tech:	Generative AI(GenAI), Prompt Engineering, Agentic AI(LLM Models), Machine Learning Concepts

EXPERIENCE

Packaged App Development Associate (ASE)

October 2024 - Present

Accenture, Gurugram, India

- Engineered production-ready ETL pipelines in Talend to load and transform data into Snowflake & BigQuery, improving reporting efficiency by **40%**.
- Streamlined cross platform data migration workflows, cutting manual operations by **30%** and ensuring data consistency across enterprise systems.
- Built scalable GCP pipelines (Dataflow, Pub/Sub) supporting both batch & streaming ingestion, enabling realtime analytics for downstream teams.
- Optimized SQL queries, reducing execution time by **25%** for analytics workloads and enhancing efficiency in reporting use cases.
- Applied data modeling & warehousing techniques (star schema, partitioning) to optimize queries by **20%**, cutting compute costs.
- Collaborated** with BI analysts, architects, and stakeholders to align data pipelines with business reporting needs.

Data Analyst Intern

May 2022 – July 2022

Lagozon Edutech Pvt. Ltd., Delhi, India

- Developed **10+** interactive Power BI dashboards, increasing client insights by **45%** while working closely with business stakeholders.
- Architected pipeline with Talend, Snowflake & Qlik, aligning with data consumers to accelerate delivery of analytics ready marts by **35%**.
- Systematized spreadsheet workflows using Excel macros & SQL, reducing manual effort by **60%**.

PROJECTS

- **End-to-End Data Integration & Management:** Orchestrated Talend pipelines & Qlik Cloud integration with daily refresh cycles, cutting reporting effort by **50%** and enabling business-ready analytics data.
- **Automated Data Onboarding Framework:** Architected data onboarding pipeline with Talend, Snowflake & MySQL; incorporated orchestration logic for automated transformations, reducing processing time by **35%**.
- **REST-Based Catalog System:** Developed a microservice in Talend with MySQL backend & REST APIs, improving data accessibility and integration flexibility by **40%**.
- **Text Summarization using NLP:** Implemented a LexRank based model with Flask to generate summaries in **23+** languages, improving readability and reducing review time.

CERTIFICATIONS

Google Cloud: 4X Google Cloud Certified

Snowflake: 2x Snowflake Certified

Qlik: 2x Qlik Certified

MongoDB: SI Associate Certified

ACHIEVEMENTS

- **Runner-Up, Accenture Premier League (GCP):** Recognized among top teams in Accenture’s internal cloud competition by delivering innovative enterprise-scale solutions on Google Cloud Platform.
- **Google Cloud Career Practitioner Program:** Completed the Arcade program twice and won **3+** Trivia Challenges, demonstrating consistent expertise and cloud knowledge.
